Repeat row 2 until shawl reaches the desired length.

Fasten off and weave in ends.

Helpful tips:

- Each shawl should ideally be 24"-34" wide and 65"-70" long without fringe. Gauge is not important for the shawls as long as they meet the required size.
- Ensure that all skeins of yarn have the same dye lot to ensure continuity. There can be slight, but noticeable, discrepancies between the same color yarn if it is a different dye lot.
- Cut fringe before you start your shawl and store in a plastic bag until shawl is complete.
- To make fringe: cut 12" pieces of yarn. Using a crochet hook fold the strand in half, pull the loop through the stitch; insert the ends of the fringe through the loop and pull tight creating a knot.
