Knitting Directions

Simple Shawl

Size 11 needles

740 yards of 4-ply or worsted weight yarn

Final Measurements: 24"-34" wide x 65"-70" long

Cast on 57 stitches (Or any odd multiple of 3 to obtain desired size.) k3, p3 to end of row, ending on k3. Continue in this pattern until the shawl reaches the desired length and cast off. Weave in ends.

To give the outside edge of the shawl a smoother finish, begin every row by slipping the first stitch purl-wise. The yarn will be in the front of your work; carry the yarn to the back of the work and k2 to continue with the pattern to the end of the row.

Helpful tips:

- Each shawl should ideally be 24"-34" wide and 65"-70" long without fringe.
- Gauge is not important for the shawls as long as they meet the required size.
- Ensure that all skeins of yarn have the same dye lot to ensure continuity. There can be slight, but noticeable, discrepancies between the same color yarn if it is a different dye lot.
- Cut fringe before you start your shawl and store in a plastic bag until shawl is complete.
- To make fringe: cut 12" pieces of yarn. Using a crochet hook fold the strand in half, pull the loop through the stitch; insert the ends of the fringe through the loop and pull tight creating a knot.
